

June Baby Boom Event!
Thursday, September 16, 1999
1:30 p.m.

You'll be seeing double – and triple – next Thursday, September 16th, when you attend The Credit Valley Hospital's June Baby Boom Event! There were an unprecedented number of multiple births at the hospital in June. There were nine sets of twins and one set of triplets born that month. The total number of multiple births for the entire 1998/99 fiscal year was one set of triplets and 47 sets of twins.

Now that the new moms have settled into their roles as parent to not one, but two babies (and in one case three babies), we're inviting them and their babies (and in a couple of cases, their brothers and sisters) back to the hospital for a June Baby Boom recognition event.

On hand to give their personal congratulations will be MLAs Rob Sampson (Minister of Correctional Services) and John Snobelen (Minister of Natural Resources). Mayor Hazel McCallion, Environment Minister Tony Clement and Minister Margaret Marland, who cannot attend, will be sending a special welcome for the moms and babies.

We'll also have our health care professionals on hand to discuss with you the increasingly important regional role CVH has to play as the designed site for Child and Maternal Health.

We'd like you to join us. There's guaranteed to be a good story or two (or three) as well as some great photo opportunities. We hope to see you in the Dean M. Sane Auditorium at The Credit Valley Hospital, Thursday, September 16, 1999 at 1:30 p.m.
